Aircraft Reservation

Invalid Link
Aircraft reservation types & colour representation

Leon allows you to **reserve** aircraft at particular airport within defined period of time. There is also a possibility to assign reservation to a client. Once the aircraft has been reserved, the system temporarly excludes this plane from any regular flight planning.

To add a reservation click [▾] on a selected day, right next to the date. The new window will come-up and mandatory fields like: aircraft type, registration, airport, date & time - all these fields need to be filled in. You can also add the name of the reservation, client, type of reservation and notes.

There are **7** types of reservation represented by different colours/indications:

- **Reservation** - orange
- **No crew** - purple
- **Reservation option** - orange with indication
- **No charter** - grey
- **Owner's approval** - dark-blue
- **Crew on request** - light-purple
- **36 hrs crewrest** - orange with indication
