# Find Aircraft functionality

It is possible to use the **Find aircraft** functionality while adding the request in Leon.

This functionality allows searching for the available aircraft for the requested route within Operator's own fleet.

How it works

'Find aircraft' functionality

Find Aircraft functionality works in the following way:

1. Click on **NEW QUOTE**

2. Insert all the required details in the **Add new quote request** pop-up window **including the routing**

3. Click on the ⌕ icon to **search for the available aircraft**

4. Find aircraft pop-up window will open with the available aircraft, including the Request price (as per screenshot on the right)

5. Select the aircraft and press the **ADD** button. Selected aircraft will be added to the 'Aircraft' section in the 'Add new quote request' window

6. Press the **CREATE** button to create the requests on the selected aircraft

	H-LEON	D-LEON	B-ARTI	✚	Q							

Aircraft H-LEON ⌄   Price 59590   EUR ⌄   VAT ___ %

Aircraft A-BCDE ⌄   Price 93305

'Find aircraft' when tail initially wasn't selected

When adding a new quote, once requester has been inserted and the aircraft minimum category chosen, if the tail has not been selected, Leon will show a new icon [FIND AIRCRAFT]

WAW ●──✈──● OSL   Departure 16 Aug 13:00   3 PAX

[CREATE A QUOTE]

[FIND AIRCRAFT]

[⟳ SHOW STATS]

Click the 'FIND AIRCRAFT' icon and a new window will pop up, showing available tails, based on the chosen aircraft category.

Once the tail/tails are selected, click the button **ADD QUOTES** and Leon will add quotes to all selected aircraft. The prices will show from the lowest to the highest, based on the previously defined aircraft & airport fees.

Additionally, if the **Feasibility check** options are selected in the filtering in the quote edit section, these feasibility check markers will appear, and can be previewed in the **'Find aircraft'** window:
