

# GAR Emails

GAR Template settings

**GAR** emails configuration can be found in a section Settings > General Settings as a separate tab.

In this page you can insert a default '**Cc**' email address as well as a default **email content**.

Here you can also choose the **format** of the file itself. Attached file can be sent either as **PDF** or **XLS**. The format can be switched to a different one before sending GAR in GAR window.

More information regarding GAR functionality in Leon can be found under [here](#).

**Separate GAR templates are available for Jersey & Guersney islands**
