

'Is initially added' option

Is initially added column is available in the 'Aircraft fees' > pricelist settings:

D-LEON		Currency		EUR	
Label	Unit	Price	Cost	Unit	Is initially added
Block Hour Fee	block hour	<input type="text" value="1000"/>	<input type="text" value="900"/>	EUR	<input checked="" type="checkbox"/>
Fuel Block Fee	block hour	<input type="text" value="1000"/>	<input type="text" value="900"/>	EUR	<input type="checkbox"/>

This setting allows indicating the element of the checklist that should be added to the quote calculation by default or not as per below:

- **Checkbox ticked** - an element included in the quote calculation by default
- **Checkbox unticked** - element doesn't apply to the quote calculation automatically, but remains as an option that can be selected from the 'Add new fee' dropdown. Once selected inserted values will apply

As per the screenshot on the right-hand side, the 'Fuel Block Fee' element added from the 'Add new fee' dropdown will recalculate based on the value inserted in the Aircraft pricelist.
