

# FTL Violations

The screenshot shows a web application interface for reporting FTL violations. It features a table with columns for Date, Time Type, Date Start, Date End, Operator, Shift, and various violation metrics. Some cells in the table are highlighted in red, indicating violations. A sidebar on the right contains filters for Date Range, Time Type, and Operator, with a 'Filter' button at the bottom.

Report FTL Violations - all FTL exceedances are indicated in red

This report shows all FDP, duty or rest violations along with cumulative times violations in a selected period of time in the filter. It is divided into 2 parts exactly like report FTL Sheet.

All violations displayed in this report are also highlighted in red in the Flights List section (crew codes are in red).

You can export this report data to PDF or Excel format.
