Report 'Lunch & Dinner' - a list of crew who have had meals provided

In a section OPS > Checklist (part CREW) you can click an icon  to mark if crew will have **breakfast, lunch or dinner** on their duty.

By using this report you can generate an information regarding who (crew code & name/surname) has had meals provided in a selected period of time.

When you hover the mouse over the crew code, Leon will display information about the flights (flight number, date, STD, ADEP, ADES, STA) on which meals were served to the crew.

Code	Person	Brekfasts	Lunches	Dinners
DEL	Thomas Delta	2	1	2

Flight No.	Date	STD	ADEP	ADES	STA	Brekfasts	Lunches	Dinners
BART	01-10-2017	23:00	PRG	NCE	01:01	+	+	+
ABC345	04-10-2017	17:00	CKL	HKG	19:30	+		+

It is possible to export data to Excel file.
