Report 'Offers' - fuel price percentage in a total quote price

This report shows fuel cost comparing to the whole quotation price.

Fuel cost comes from refueling invoice inserted in section Handling > [Refueling](#).

Details displayed in this reports are:

- **Legs details** - flight number, schedule.
- **Offer number** - quote number added in Planned Flights.
- **Fuel cost** - Leon shows mass of fuel, invoice price and its number.
- **Price** - in green you can see the quote price and the margin in percents.
