

Per Diems

From (UTC)	To (UTC)	Length	Per diem
19-11-2014 11:00	19-11-2014 14:28	3:28	1
25-11-2014 15:00	26-11-2014 18:08	27:08	1.5
26-11-2014 18:00	26-11-2014 17:38	07:38	1

3.8 / 140 EUR

Location: Manchester (EGCC)
No of stops: 1

Report 'Per Diems' - crew wages calculated according to settings in section 'Diets Definition' and operator personal requirements

If you have defined **per diems** for your crew in section Settings > Per Diems Definitions (read more about this topic [HERE](#), you can use this report to view monthly wages for crew members.

In the default Leon setting Per Diems are calculated as follow:

- **0.25 per diem** for 1-6 hours outside home base
- **0.5 per diem** for 6-12 hours outside home base
- **1 per diem** for 12 hours and more outside home base

Per diems will be calculated for both - flights with journey log and also without journey log (schedule times apply).

It is possible to switch between **UTC** and **LT** in the filter.
