

ROSTER AND DUTY

A thumbnail image of an Excel spreadsheet. The spreadsheet has many columns and rows, typical of a detailed report. The columns are labeled with various categories, and the rows contain data entries. The overall layout is dense and organized, characteristic of a professional report.

'Roster and Duty' report - excel

The report is generated for a single person for a specific timeframe indicated in the filter.

The report contains the duty details from crew planning modules (Crew Calendar and Crew Timeline) as well as the FTL periods.

The data in the report is only available when exported to an excel file.
