

Schedule

The screenshot shows a web application interface for a flight schedule report. On the left, there is a sidebar with various filters and controls. The main area displays a table of flight data. The table has columns for 'Date', 'Flight', 'Aircraft', 'Route', 'Departure', 'Arrival', 'Pax', 'Status', and 'Remarks'. The data is organized into rows, with some rows highlighted in blue. The table is titled 'Report Schedule' and includes a search bar and a 'Filter' button.

Report 'Schedule' - the view on flights with additional pax information from Legs Info section

This report shows all flights (including options) exactly as they have been added to the section Flights List.

Aircraft colours also correspond with those defined in Settings > Fleet page (click an aircraft to edit its details).

Apart from details such as: date, aircraft registration, route, departure & arrival times (in LT) - the report also shows information input in Legs Info screen: pax transport for ADEP & ADES and Trip Supplementary Info.

You can export data to PDF or Excel file.
