Report 'Scheduled Maintenance' - the list of planned aircraft maintenance

All scheduled maintenance added to Leon in section MX > Scheduled Maintenance can be displayed as a report and exported to Excel.

The report itself shows information such as:

- Aircraft registration number
- Location (where maintenance will take place)
- Schedule (date & time)
- Type of event (whether maintenance is scheduled or not)
- Work order number
- Supplier name

2024/05/05 08:43

Comments / Observation

In the filter you can select aircraft registration and include maintenance options.
