

'Sales Module' in 'General settings'

Sales Module tab is available in Admin Panel > General Settings section.

This section is directly connected to the quotation process performed in the 'Requests/Quotes'.

There are the following subsections available in the 'Sales Module' section:

- **Default notes**
- **Default invoice data**
- **Exclusion zones**
- **Quote Request Statuses**
- **Country VAT**
- **Quote Settings**
- **Optional Trip Settings**
- **Invoices & Credit notes**
- **Subcharter settings**
- **Phonebook settings**
- **Customer portal**

Default notes

'Default notes'

Default notes subsection allows inserting:

- Default Legal Note
- Default Cancellation Policy

Once the notes are added in this subsection, they will appear in the quote edit > Notes tab in the 'LEGAL NOTE' and the 'CANCELLATION POLICY' fields respectively.

Additionally, the notes can be included in the sales documents, if applied in the Documents Manager for specific document.

Default invoice data

'Default invoices settings'

Default invoice data contains two sets of settings:

- **Default invoice recipient email** - this can be used when, rather than sending an invoice email to the Client, the email is sent to the internal department (e.g. Accountancy) for checks, and then the internal department sends it to the Client. If the default email is set in this section, it will automatically populate as a **TO** email when selecting the **INVOICE** option on the quote editing page.
- **Default address** - default address comprises 5 address lines that can be used on the invoice as the Invoice address. By default, Leon takes the address from the 'Manage account' settings, however, if the address for invoices is different, then it can be inserted here and used on the document/email

Exclusion zones

'Exclusion zones'

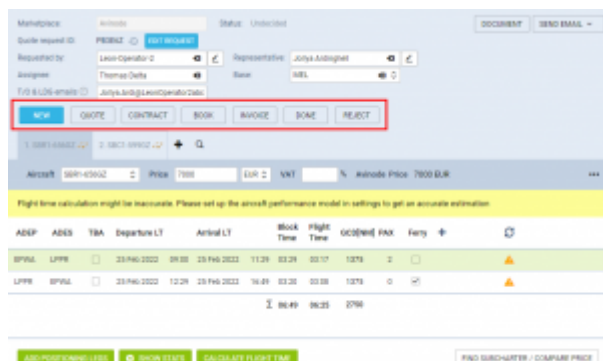

Exclusion zones are countries over which the aircraft should not be flying.

Once the exclusion zones are selected, the flight time calculations that apply to Aviapages and ReouteFinder in Request/Quotes panel > Edit quote ('Calculate Flight Time' option) will take these zones into consideration and omit the selected countries.

Exclusion zones indicated in this section will apply per operator.

There are 2 additional options available in the 'Fleet' section (per aircraft) and the Client profile (per Client).

Quote Request Statuses

Statuses selected in the settings

Quote Request Statuses setting allows selecting the default request statuses.

All the statuses are available in the dropdown and once selected, they appear in the list below the

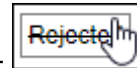

dropdown.

Quote request statuses

New requestQuotedContract sentBookedInvoice sentDoneRejected

Upon saving, the statuses will update in the request edit section (as per screen on the right).

To remove the status from the list simply click on the status icon -  - and save the updated settings.

Country VAT

Country (ISO)	Year (Yr)	Value	Unit
Spain (ESP)	2014	20	%
Poland (POL)	2014	20	%
United Kingdom (GB)	2014	0	%

Country VAT

In **Country VAT** it is possible to select the default VAT rate for a specific country

Aircraft	Airline	Price	14000	EUR	10	%			
ADFP	ADER	TBA	Departure LT	Arrival LT	Block Time	Flight Time	GC3@M	PM	Perp
PRO	WUW	<input type="checkbox"/>	29 May 2021 08:20	29 May 2021 09:40	01:20	00:40	280	0	40
WUW	WRO	<input type="checkbox"/>	29 May 2021 10:30	29 May 2021 11:00	00:30	00:30	148	2	0
WRO	WUW	<input type="checkbox"/>	29 May 2021 11:20	29 May 2021 12:10	00:50	00:50	148	0	30

Example of default VAT rate application

Once the list of rates is created, it then applies the default rate to the request in the 'Requests/Quotes' section based on the following criteria:

- it has to be a domestic flight and within the listed country
- it has to be a passenger flight

The default VAT rate will be presented in the **VAT** box in the quote/edit section, as per the screenshot on the right.

The default VAT rates also apply to the requests coming from Avinode.

Quote Settings

Require departure and arrival times to be set regardless of TBA setting

Require departure and arrival times to be set regardless of TBA setting option applies to the way the scheduled times are displayed in the itinerary when editing the quote:

Quote settings

Require departure and arrival times to be set regardless of TBA setting ☒

- **Ticked** - Departure and Arrival times appear and despite the 'TBA' checkbox being ticked

ADEP	ADES	TBA	Departure LT	Arrival LT	Block Time	Flight Time	GCD[NM]	PAX	Ferry	+
EPWA	LPPR	<input checked="" type="checkbox"/>	12 Feb 2022 10:00	12 Feb 2022 13:30	04:30	03:56	1375	2	<input type="checkbox"/>	

- **Unticked** - Departure and Arrival times do not appear and only the 'TBA' label is displayed

ADEP	ADES	TBA	Departure LT	Arrival LT	Block Time	Flight Time	GCD[NM]	PAX	Ferry	+
EPWA	LPPR	<input checked="" type="checkbox"/>	12 Feb 2022 TBA	12 Feb 2022 TBA	04:30	03:56	1375	2	<input type="checkbox"/>

Create non confirmed trip in ops module

SEND SENDING EMAIL

SEND

'Create non-confirmed trip in OPS module' option

Create non-confirmed trip when contact is sent

The '**Create non-confirmed trip when contact is sent**' checkbox allows activating the '**Create non-confirmed trip in OPS module**' checkbox in the 'Send document: Charter Agreement' pop-up window ('CONTRACT' status button in the RFQ).

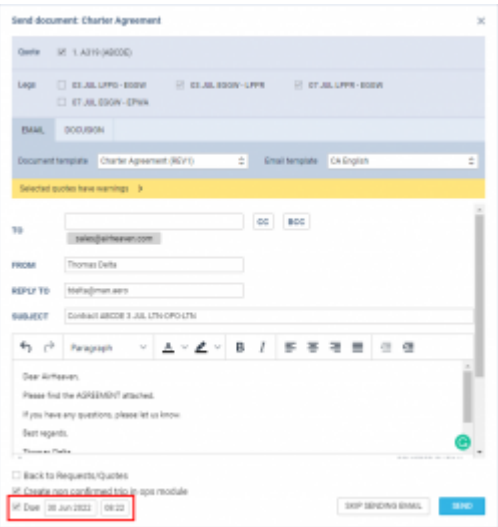

Optional trip settings

Create non confirmed trip when contract is sent

☒

Selecting the '**Create non-confirmed trip in OPS module**' and sending the contract to the Client will create a non-confirmed trip (Option) in the OPS section without having to initially go through the 'OPTION' status button. This checkbox is the equivalent of the 'OPTION' status button in the RFQ.

Leonsoftware Wiki - <https://wiki.leonsoftware.com/>

Indication of a due date when creating a non-confirmed trip

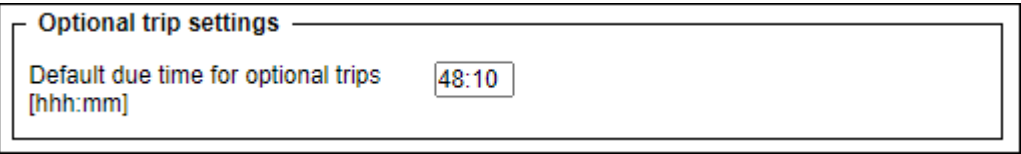

Default due time for optional trips [hhh:mm]

The **Default due time for optional trips [hhh:mm]** allows setting the due time and date for when the non-confirmed trip should be automatically cancelled if the response is not received from the buyer.

The format of the default due date is set to **hhh:mm**. This allows calculating the correct due time and date based on the time when the non-confirmed trip is being created.

EXAMPLE

The due time is set to 48:10, as per the below screenshot:

When creating the non-confirmed trip (either via the 'OPTION' or the 'CONTRACT' status) on the 28th of June at 08:12LT, the due date will automatically be set to the 30th of June at 08:22LT (as per the screenshot on the right).

Invoices & Credit notes

This subsection consists of 3 settings:

- Due date for invoices
- Include taxes in trip price for invoices
- Default recharge invoice item tax rate

Invoices & Credit notes

Set invoices due date days

Include taxes in trip price on invoices ☒

Default recharge invoice item tax rate

Due date for invoices

In this section, you can set up a **default 'Due date'** for the Quote Invoice.

The setting consists of **2 fields**:

1. Input with the number of days
2. Dropdown with the following options:
 - **after issue date** - number of days after the invoice issue date
 - **after invoice date** - number of days after the invoice date
 - **before flight** - number of days before the first flight within the request

As you can see in the example below, the Invoice due date was set to 7 days after the invoice date:

EMAIL	INVOICE	+
Template	Quote Invoice (REV1)	
DOWNLOAD		
Invoice No.	<input type="text" value="INV123456"/>	Company name <input type="text" value="AirHeaven"/>
Invoice Date	<input type="text" value="10 Sep 2021"/>	Address <input type="text" value="London Rd, L13 W14 London, U.K."/>
Issue Date	<input type="text" value="10 Sep 2021"/>	
Due Date	<input type="text" value="17 Sep 2021"/>	Country <input type="text" value="GBR"/>
Currency	<input type="text" value="EUR"/>	EU VAT# <input type="text"/>

By default, the 'Due date' is set to 10 days after the issue date. This setting also applies to 'Credit Notes'

Include taxes in trip price for invoices

Include taxes in trip price for invoices setting allows deciding whether the tax should be displayed as a separate item on the Invoice section of the request.

It works as follow:

- **Ticked** - tax is included in the total price in the Invoice section

Items	Net	VAT	Gross	+
Fee for London - New York on 12-02-2022	112137.00	EUR N/A %	112137.00	EUR
RESET ITEMS			Total	112137.00 EUR

- **Unticked** - the default setting, tax is presented as a separate item in the Invoice section

Items	Net	VAT	Gross	+
Fee for London - New York on 12-02-2022	110836.29	EUR N/A %	110836.29	EUR
UK Air Passenger Duty Tax	1300.71	EUR N/A %	1300.71	EUR
RESET ITEMS			Total	112137.00 EUR

Default recharge invoice item tax rate

Default recharge invoice item tax rate allows setting up a default VAT rate for the items listed on the Recharge Invoice.

The rate will automatically apply and can be presented both in an email and the Invoice document.

Items	Net	VAT	Gross	+
Wi-Fi	1200.00	USD 5 %	1260.00	USD
RESET ITEMS			Total	1260.00 USD
