

'Sales Module' in 'General settings'

Sales Module tab is available in Admin Panel > General Settings section.

This section is directly connected to the quotation process performed in the 'Requests/Quotes'.

There are the following subsections available in the 'Sales Module' section:

- **Default notes**
- **Default invoice data**
- **Exclusion zones**
- **Quote Request Statuses**
- **Country VAT**
- **Quote Settings**
- **Optional Trip Settings**
- **Invoices & Credit notes**
- **Subcharter settings**
- **Phonebook settings**
- **Customer portal**

Default notes

'Default notes'

Default notes subsection allows inserting:

- Default Legal Note
- Default Cancellation Policy

Once the notes are added in this subsection, they will appear in the quote edit > Notes tab in the 'LEGAL NOTE' and the 'CANCELLATION POLICY' fields respectively.

Additionally, the notes can be included in the sales documents, if applied in the Documents Manager for specific document.

Default invoice data

'Default invoices settings'

Default invoice data contains two sets of settings:

- **Default invoice recipient email** - this can be used when, rather than sending an invoice email to the Client, the email is sent to the internal department (e.g. Accountancy) for checks, and then the internal department sends it to the Client. If the default email is set in this section, it will automatically populate as a **TO** email when selecting the **INVOICE** option on the quote editing page.
- **Default address** - default address comprises 5 address lines that can be used on the invoice as the Invoice address. By default, Leon takes the address from the 'Manage account' settings, however, if the address for invoices is different, then it can be inserted here and used on the document/email

Exclusion zones

'Exclusion zones'

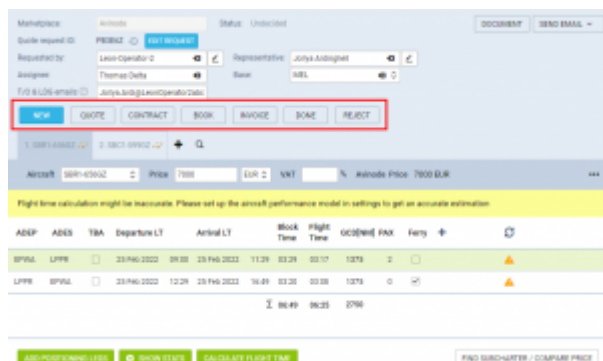

Exclusion zones are countries over which the aircraft should not be flying.

Once the exclusion zones are selected, the flight time calculations that apply to Aviapages and ReouteFinder in Request/Quotes panel > Edit quote ('Calculate Flight Time' option) will take these zones into consideration and omit the selected countries.

Exclusion zones indicated in this section will apply per operator.

There are 2 additional options available in the 'Fleet' section (per aircraft) and the Client profile (per Client).

Quote Request Statuses

Statuses selected in the settings

Quote Request Statuses setting allows selecting the default request statuses.

All the statuses are available in the dropdown and once selected, they appear in the list below the

dropdown.

Quote request statuses

New request

Quoted

Contract sent

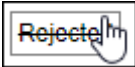

Booked

Invoice sent

Done

Rejected

Upon saving, the statuses will update in the request edit section (as per screen on the right).

To remove the status from the list simply click on the status icon -  - and save the updated settings.

Country VAT

Country VAT

In **Country VAT** it is possible to select the default VAT rate for a specific country

| | | | | | | |
|----------|--------|-------|-------------------|-------------------|------------|-------------|
| Aircraft | A-0100 | Price | 14000 | EUR | 20 | % |
| ADDP | ADDP | TBA | Departure LT | Arrival LT | Block Time | Flight Time |
| PRG | WNR | | 29 May 2023 09:00 | 29 May 2023 09:40 | 01:00 | 00:40 |
| WNR | WNR | | 29 May 2023 10:00 | 29 May 2023 11:00 | 01:00 | 00:00 |
| WNR | WNR | | 29 May 2023 11:00 | 29 May 2023 12:10 | 00:50 | 00:00 |

Example of default VAT rate application

Once the list of rates is created, it then applies the default rate to the request in the 'Requests/Quotes' section based on the following criteria:

- it has to be a domestic flight and within the listed country
- it has to be a passenger flight

The default VAT rate will be presented in the **VAT** box in the quote/edit section, as per the screenshot on the right.

The default VAT rates also apply to the requests coming from Avinode.

Quote Settings

Require departure and arrival times to be set regardless of TBA setting

Require departure and arrival times to be set regardless of TBA setting option applies to the way the scheduled times are displayed in the itinerary when editing the quote:

Quote settings

Require departure and arrival times to be set regardless of TBA setting ☒

- **Ticked** - Departure and Arrival times appear and despite the 'TBA' checkbox being ticked

| ADEP | ADES | TBA | Departure LT | Arrival LT | Block Time | Flight Time | GCD[NM] | PAX | Ferry | + |
|------|------|-------------------------------------|-------------------|-------------------|------------|-------------|---------|-----|--------------------------|---|
| EPWA | LPPR | <input checked="" type="checkbox"/> | 12 Feb 2022 10:00 | 12 Feb 2022 13:30 | 04:30 | 03:56 | 1375 | 2 | <input type="checkbox"/> | |

- **Unticked** - Departure and Arrival times do not appear and only the 'TBA' label is displayed

| ADEP | ADES | TBA | Departure LT | Arrival LT | Block Time | Flight Time | GCD[NM] | PAX | Ferry | + |
|------|------|-------------------------------------|-----------------|-----------------|------------|-------------|---------|-----|--------------------------|---|
| EPWA | LPPR | <input checked="" type="checkbox"/> | 12 Feb 2022 TBA | 12 Feb 2022 TBA | 04:30 | 03:56 | 1375 | 2 | <input type="checkbox"/> | |

Minimal price margin

Minimum price margin warning

Quote settings

Require departure and arrival times to be set regardless of TBA setting ☒

Minimal price margin

This setting allows defining the minimum margin required applicable to the 'Cost & Margin' method of quoting.

If a quote margin falls below the value specified in this section, Leon will display warning information upon clicking on the 'QUOTE' status (screen on the right).

Automatically update quote on schedule change

Automatically update quote on schedule change allows setting up and automated update of itinerary and recalculation of the price of the request if the itinerary is changed in the OPS section.

Quote settings

Automatically update quote on schedule change☒

There are the following scenarios that apply, based on the **Automatically update quote on schedule change** checkbox setting:

- Checkbox is ticked** - schedule updates automatically and the price is recalculated based on the 'Recalculate itinerary' method as soon as the changes are saved in the OPS section:

| | | | | | | | | | | | | | | |
|----------|------|--------------------------|--------------|-------|-------------|-------|------------|-------------|---------|-----|-------------------------------------|---|--|--|
| Aircraft | | B-ARTI | Price | | 79600 | EUR | | VAT | | | | | | |
| ADEP | ADES | TBA | Departure LT | | Arrival LT | | Block Time | Flight Time | GCD[NM] | PAX | Ferry | + | | |

Create non confirmed trip in ops module

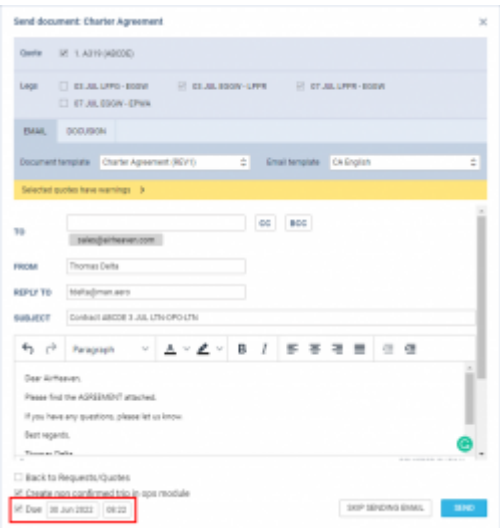

'Create non-confirmed trip in OPS module' option

Create non-confirmed trip when contact is sent

The **'Create non-confirmed trip when contact is sent'** checkbox allows activating the **'Create non-confirmed trip in OPS module'** checkbox in the 'Send document: Charter Agreement' pop-up window ('CONTRACT' status button in the RFQ).

Selecting the **'Create non-confirmed trip in OPS module'** and sending the contract to the Client will create a non-confirmed trip (Option) in the OPS section without having to initially go through the 'OPTION' status button. This checkbox is the equivalent of the 'OPTION' status button in the RFQ.

Indication of a due date when creating a non-confirmed trip

Default due time for optional trips [hhh:mm]

The **Default due time for optional trips [hhh:mm]** allows setting the due time and date for when the non-confirmed trip should be automatically cancelled if the response is not received from the buyer.

The format of the default due date is set to **hhh:mm**. This allows calculating the correct due time and date based on the time when the non-confirmed trip is being created.

EXAMPLE

The due time is set to 48:10, as per the below screenshot:

When creating the non-confirmed trip (either via the 'OPTION' or the 'CONTRACT' status) on the 28th of June at 08:12LT, the due date will automatically be set to the 30th of June at 08:22LT (as per the screenshot on the right).

Invoices & Credit notes

This subsection consists of 3 settings:

- **Due date for invoices**
- **Include taxes in trip price for invoices**
- **Default recharge invoice item tax rate**

Invoices & Credit notes

Set invoices due date days

Include taxes in trip price on invoices ☒

Default recharge invoice item tax rate

Due date for invoices

In this section, you can set up a **default 'Due date'** for the Quote Invoice.

The setting consists of **2 fields**:

1. Input with the number of days
2. Dropdown with the following options:
 - **after issue date** - number of days after the invoice issue date
 - **after invoice date** - number of days after the invoice date
 - **before flight** - number of days before the first flight within the request

As you can see in the example below, the Invoice due date was set to 7 days after the invoice date:

| EMAIL | INVOICE | + |
|--------------|----------------------|--------------|
| Template | Quote Invoice (REV1) | DOWNLOAD |
| Invoice No. | INV123456 | Company name |
| Invoice Date | 10 Sep 2021 | Address |
| Issue Date | 10 Sep 2021 | Country |
| Due Date | 17 Sep 2021 | EU VAT# |
| Currency | EUR | |

By default, the 'Due date' is set to 10 days

after the issue date. This setting also applies to 'Credit Notes'

Include taxes in trip price for invoices

Include taxes in trip price for invoices setting allows deciding whether the tax should be displayed as a separate item on the Invoice section of the request.

It works as follow:

- **Ticked** - tax is included in the total price in the Invoice section

| Items | Net | VAT | Gross | + |
|---|-----------|-----------|-----------|---------------------|
| Fee for London - New York on 12-02-2022 | 112137.00 | EUR N/A % | 112137.00 | EUR |
| RESET ITEMS | | | | Total 112137.00 EUR |

- **Unticked** - the default setting, tax is presented as a separate item in the Invoice section

| Items | Net | VAT | Gross | + |
|---|-----------|-----------|-----------|---------------------|
| Fee for London - New York on 12-02-2022 | 110836.29 | EUR N/A % | 110836.29 | EUR |
| UK Air Passenger Duty Tax | 1300.71 | EUR N/A % | 1300.71 | EUR |
| RESET ITEMS | | | | Total 112137.00 EUR |

Default recharge invoice item tax rate

Default recharge invoice item tax rate allows setting up a default VAT rate for the items listed on the Recharge Invoice.

The rate will automatically apply and can be presented both in an email and the Invoice document.

| Items | Net | VAT | Gross | + |
|-------------|---------|---------|---------|-------------------|
| Wi-Fi | 1200.00 | USD 5 % | 1260.00 | USD |
| RESET ITEMS | | | | Total 1260.00 USD |
