W & B

> **Weight & Balance functionality is optional and involves an one-off additional charge per a tail, which depends on the aircraft type. In order to set up Weight and Balance for an aircraft you need to contact support@leonsoftware.com and send Aircraft Flight Manual or Weight and Balance Report.**

Weight & Balance - pdf file available in Leon

The **Weight & Balance** panel allows you to manually adjust details. You can edit particular fields and adjust values.

The section W&B is divided into several parts:

- **CONFIGURATION** - showing MTOW value.
- **Fuel** - fuel weight for Block, Taxi and Trip.
- **Passengers** - the weight of pax in particular seats.
- **Crew & Pantry** - crew & pantry weight.
- **Baggage** - baggage weight (i.e. tailcone and cabin baggage).
- **Result** - showing %mac and weight values for: crew & amp pantry, payload, empty aircraft, fuel weight, etc…

RESULT		PREVIEW
	% mac	weight
CREW &AMP PANTRY	0	464
PAYLOAD	0	652
EMPTY AIRCRAFT	33.7	7694.2

Next to **Result** section you there is 'PREVIEW' link which shows **pdf** with details of **Aircraft Stations**, **Calculations** along with the envelope.
