

iPad

Uploading & Logging in

- **Uploading**

Uploading Leon application on iPad is easy. Go to **App Store** and search for Leon Software - you will get a view with Leon logo and some details about the application. All you need to do is to upload it on your iPad. Once it's done, you can start using Leon anywhere, anytime.

- **Logging in**

Once the application has been uploaded, you can log in to Leon. The log-in screen looks similar to the one on-line.

Type the code of your operator, your login and your password (if you don't remember your login/password, please contact support@leonsoftware.com - a new login details will be sent out to your email address provided in your profile).

Duty view

Viewing duty day on iPad

To view your duty, simply click on the square with the aircraft icon, or with the duty-type (D-duty, V-vacation, etc). Right below the calendar you will see details of the flight/flights to which you have been assigned:

- aircraft registration

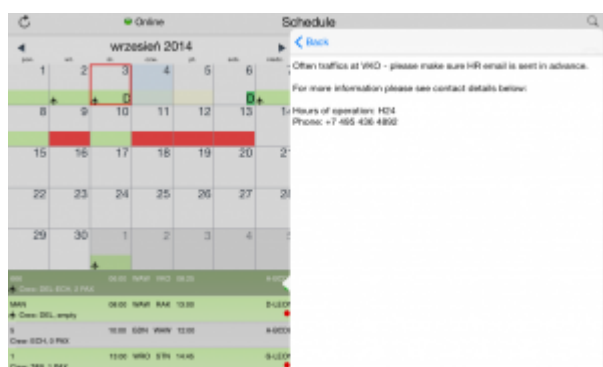

- schedule times
- ADEP & ADES codes
- assigned crew codes
- status dot

On the right side of the screen you can see the same flights displayed as fields with STD, airport codes and STA.

Scheduled maintenance is displayed in red (both: the belt below the calendar and on the right-hand side of the screen).

Flights performed more than **6 weeks** from the present day are **not available** in the mobile application

Legs Info

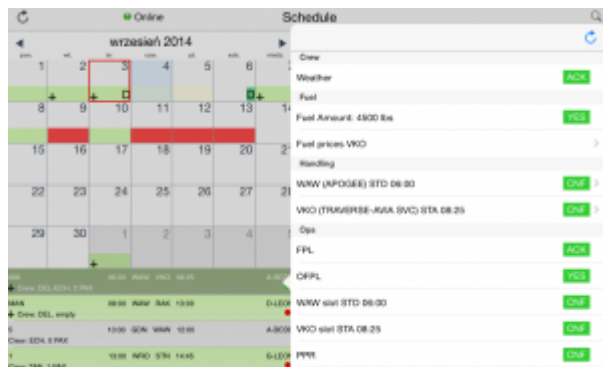

Legs info on iPad

If you wish to view a particular flight's legs info section, click on the flight below the calendar and a new pop-up window will show up.

The view represents the state of the preparation of the flight. Most sections previously set by OPS department in 'Legs Info' section will be visible:

- crew - hotel, transport
- fuel - amount
- handling - airport codes along with times
- ops - slots, permissions (if necessary), a/c performance, etc...
- pax - pax number and transport (if added)

Viewing legs info sections

The screenshot shows the Leon software interface. On the left is a calendar for September 2014 (wrzesień 2014). A red box highlights the 3rd of the month. On the right is a 'Schedule' list with various items and their status. The items are: Crew (ACOK), Weather (ACOK), Fuel (ACOK), Fuel Amount: 4900 kg (ACOK), Fuel prices VKO (ACOK), Handling (ACOK), WWW (APOGEE) STD 08:30 (OK), VKO (TRUMPERE-KVA SVC) STA 08:25 (OK), Ops (ACOK), PPL (ACOK), CPPL (ACOK), D-LEO (OK), WWW start STD 08:30 (OK), A-808 (OK), VKO start STA 08:25 (OK), and G-LEO (OK).

Item	Status
Crew	ACOK
Weather	ACOK
Fuel	ACOK
Fuel Amount: 4900 kg	ACOK
Fuel prices VKO	ACOK
Handling	ACOK
WWW (APOGEE) STD 08:30	OK
VKO (TRUMPERE-KVA SVC) STA 08:25	OK
Ops	ACOK
PPL	ACOK
CPPL	ACOK
D-LEO	OK
WWW start STD 08:30	OK
A-808	OK
VKO start STA 08:25	OK
G-LEO	OK

Legs info details

If 'Legs Info' sections have been filled in with details - the same information can be seen on iPad.

For example: 'Overflight permission' details have been input to Leon - when you view 'Legs Info' on your iPad, by clicking on the 'Overflight permission' belt, you can see all details. The same applies to all other sections of 'Legs Info' available on iPad.
