In many cases crew members finish their duty on the next calendar day. In the '**FTL Sheet**' report, if such a duty is done, the **duty-end date** is displayed right next to the exact duty-end time and the next day duty-time is **blank**.

- **Example 1** - 1-leg trip.

The duty **starts on 13-02** at 21:00 UTC, **ends on 14-02** at 10:25 UTC.
