

We have added a new colour of the 'Handling Requests' button - **ORANGE** - in the 'Legs Info' section.

If there are any important changes done in the flight, such as: **Time change, Date change, Aircraft change, Destination/Departure change** - the colour of the HR button will turn to red  and also the handling agents statuses will become . All the other changes, such as: Crew change, Pax change, etc... will make the colour of the HR button turn to orange .
