

FlyEasy Software

FlyEasy Software is a map-based business aviation search platform allowing users to quickly search and request trip pricing from any aircraft operator in the world.

More information about FlyEasy software can be found [here](#)

How it works

The integration allows importing empty legs from Leon to FlyEasy Software. The process of data integration is fully automated, with an update on empty legs running between Leon and FlyEasy platforms every 1 hour.

How to integrate

In order **to integrate** with FlyEasy Software ou need to go to 'Settings' > 'API Keys' section, generate [API key](#) with 'Aircraft Availability' from 'Resources' list and forward this key to your FlyEasy Software manager or Tech Support.

More information about **generating API keys** can be found [here](#).
