

If you add more than one leg to the **trip**, changing the **status** of any of these legs will result in changing the whole **trip status**.

For example: a trip consists of 4 legs - 2 legs on 12-08-2013 and the other 2 on 14-08-2013. All legs have been assigned with the status '**Option**' and all of them have the same 'Quote number': 123

When you change the status of the 1st leg to '**Flight**' (i.e. option has been confirmed) - **all other legs** will have the status changed to 'Flight' as well.

The same applies when i.e. 3 legs of one trip have the same Quote number:123 - but the last leg has a **different** :456 - when changing the status of the last leg from 'Option' to 'Flight' **it will result** in changing the status of the other 3 legs to 'Flight' as well. Please see the sequence below:

- **A new trip is added with 4 legs - status 'Option'**

12 Aug Mon ▼	13 Aug Tue ▼	14 Aug Wed ▼
12:00 z WAW-STN STN-OPO NEW z 17:00	WAW	12:00 z OPO-STN STN-WAW NEW z 17:00

- **One leg's status is changed to 'Flight'**

Reg No.	Aircraft Type*	Status	Operation type	Code				
H-LEON	H750	Flight	Commercial					
Date	STD	ADEP	ADES	STA	PAX	ADEP handling	ADES handling	
12-08-2013	12:00 z	WAW	STN	14:00 z	0	LOT RAMP SVCS	N/A	
12-08-2013	15:00 z	STN	OPO	17:00 z	0	N/A	N/A	

- **The entire trip changes its status to 'Flight'**
