

In section CDR Definition, you can select now darker colours as Leon will display codes of duties in white (in Crew > Duties screen).

- **Add new duty and select a colour** - when the colour is bright, Leon will add its code in black. When the colour is dark, the code will be in white (see below).

In **Crew Duties** table, assigned duty code will get displayed in black:

	D	D	D	D	D
