

# COMPLYTEQ Integration

We have added a brand new **ComplyTeq** integration to the panel ADD-ONS. Integrating with ComplyTeq can help with the PAX ID verification.

In order to integrate you need to switch the status to ON and insert the **Client ID** and the **Client secret** in a section 'Add-ons' of the 'Settings' panel.

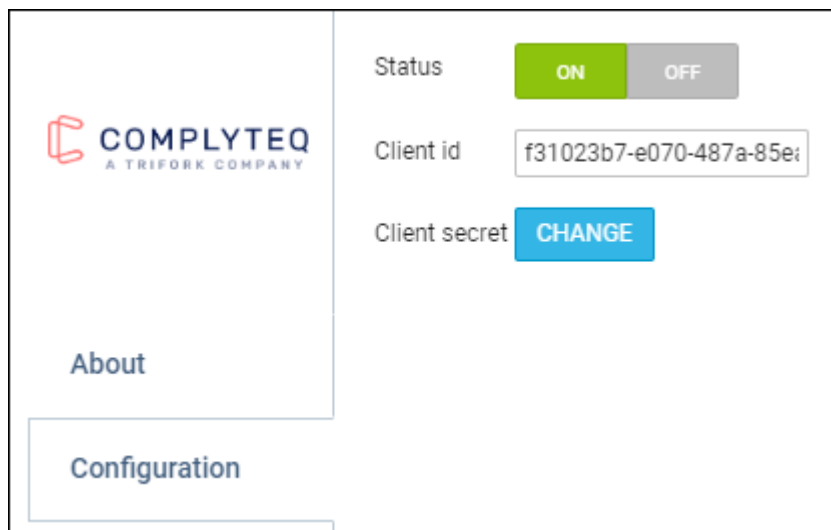

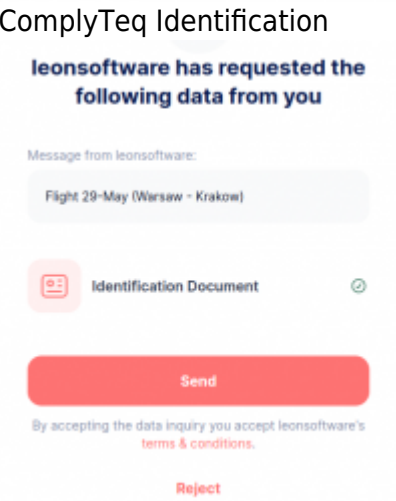

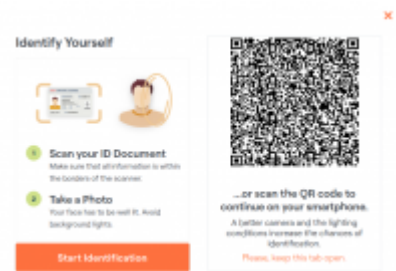

the 'Secret' in the 'API Key'

Both **abovementioned credentials** can be **obtained** upon performing the following:

1. Log in to your ComplyTeq account and go to Dashboard > Company Settings
2. Go to the 'API Keys' section in ComplyTeq
3. Add an API key and copy the **Secret**. This is the **Client secret** used in Leon integration configuration
4. Go to the list of 'API Keys' and edit the newly added 'API Key'
5. In the URL address **Client ID** for **Leon configuration** can be found, e.g:  
admin.complyteq.com/dashboard/api-keys/**1035d75c-9r77-35e0-s859-f45t3141kffl**

Insert obtained **Client secret** and **Client ID** in the 'Configuration' of the integration.

ComplyTeq sending ID to Leon

The **2nd step** is adding PAX to the quote, by click the button  in a tab 'PAX'.

Leon will show a new window, where PAX details need to be added, such as: name, surname, phone number & email address.

ComplyTeq - add passenger list

Legs ☒ 18 JUN EPWA - EPKK

Name	Surname	Phone	Email	
<input type="text" value="Martha"/>	<input type="text" value="Stewart"/>	<input type="text" value="+44 7928 249924"/>	<input type="text" value="m.stewart@gmail.co"/>	<div><div>+</div><div>-</div></div>

CANCEL

ADD

All added contacts will be stored in Leon.

Once PAX data has been sent out, passengers will be asked to submit their ID document, which will show in Leon - submitted ID will show in PAX 'DOCUMENTS' section.
