INCLUDE MY AIRCRAFT FLIGHTS

A new functionality: **Include my aircraft flights** has been added to the panel **My Schedule** of the **Leon Crew App**. It allows to include flights of the aircraft to which a crew member has been added as 'Preferred crew', despite the fact that he/she is not assigned to those flights.

In a panel **FLEET**, tab **CREW**, it is possible to add 'Preferred crew' to the aircraft.

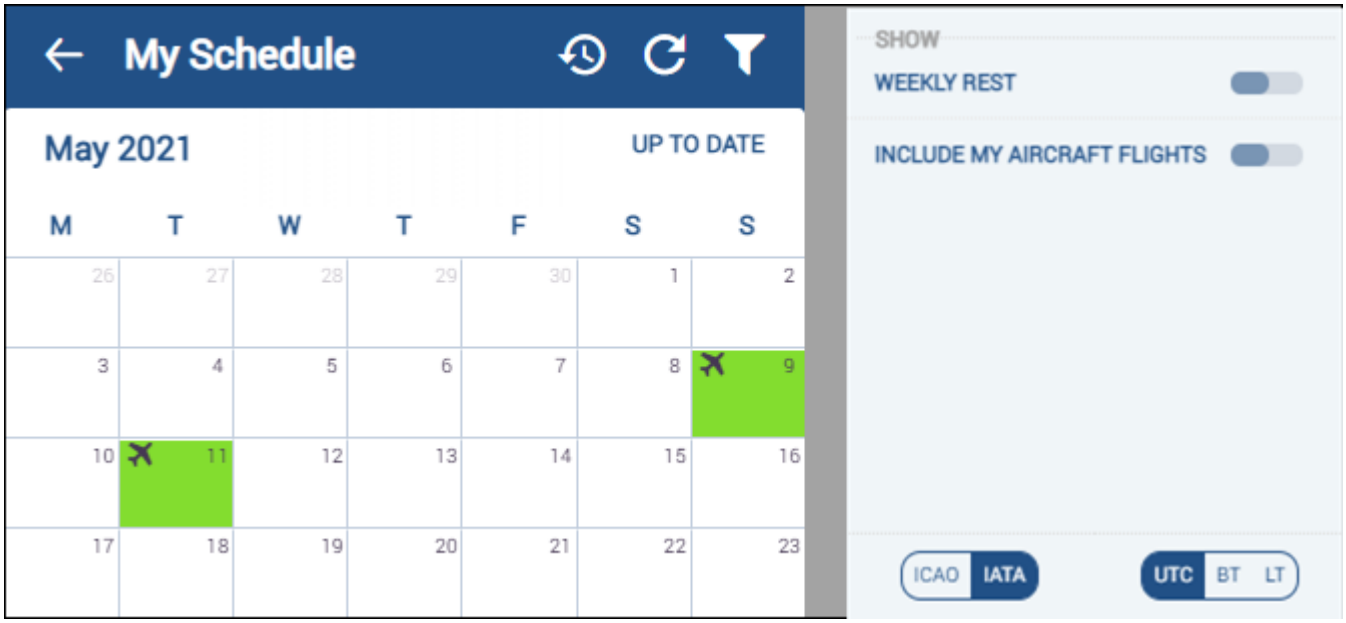

A screenshot below shows an example of a crew Bartoli Aaron (BAR) added as 'Preferred crew' to the aircraft 'B-ARTI'.

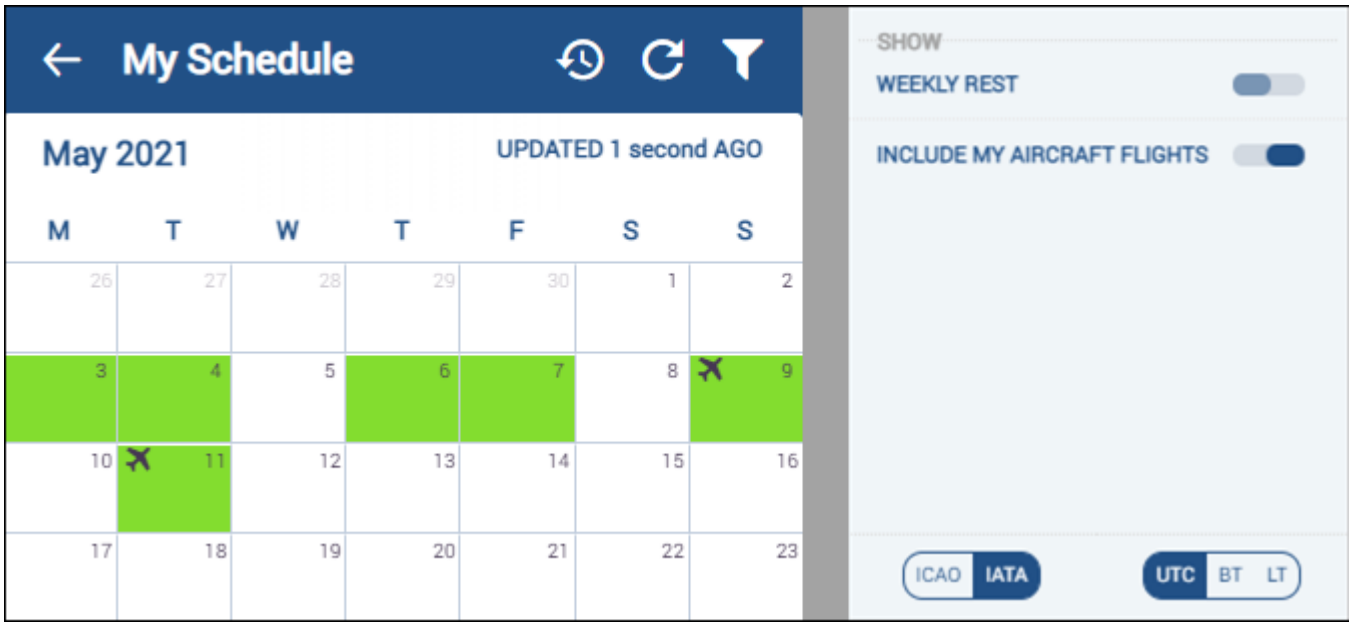

Crew BAR has been assigned to 2 flights on the aircraft 'A-BCDE' (to which he is not added as 'Preferred crew'), and there are 4 flights on the aircraft 'B-ARTI' (to which he is added as 'Preferred crew') where he is not assinged as a pilot.

When crew BAR is logged in to Leon Crew App, in a panel 'My Schedule', he can see 2 flights he is assigned to, on the tail 'A-BCDE' (an option **Include my aircraft flights** is switched off).

If in the **Filter** an option **Include my aircraft flights** is switched on, crew BAR will also see all flights of the tail 'B-ARTI'.
