

MVT

The screenshot shows the 'Details' screen of the Crew App. At the top, there's a blue header with a back arrow and the word 'Details'. Below it, the flight information is displayed: 'FLIGHT ABCDE ABCDE 03:55 z EPWA - KJFK 13:30 z'. A list of flight details follows, each with a label and a value: CTOT date: 01 Jul 2022, CTOT time: 03:55 z, ETD date: 01 Jul 2022, ETD time: 03:55 z, BLOFF date: 01 Jul 2022, BLOFF time: 03:58 z, T/O date: 01 Jul 2022, T/O time: 04:02 z, EET time: 09:23, ETA date: 01 Jul 2022, ETA time: 13:25 z, LDG date: 01 Jul 2022, LDG time: 13:35 z, BLON date: 01 Jul 2022, and BLON time: 13:42 z. At the bottom, there's a navigation bar with five icons: 'Crew', 'Checklist', 'FWS', 'MVT' (which is highlighted), and 'Log'.

'MVT' tab in Crew App

MVT tab allows the pilots to insert the Flight Watch details.

This tab contains all the fields that are available in the desktop version of the 'Flight Watch'.

The **timeframe** details are split into the date and the time value.

Clicking on the **date field** will open a calendar pop-up where the specific date can be selected, if other than suggested.

Clicking on any of the **timeframe fields** (CTOT, ETD, BLOFF, etc) will open a pop-up identical to the one in the 'JL', where the time value can be inserted as well as one of the 3 options selected:

- **CANCEL** - cancelling the input and closing the pop-up
- **CONFIRM** - saving the inserted value and closing the pop-up
- **NEXT** - saving the inserted value and moving to the next FW field

Flight Watch inserted and saved in the 'MVT' tab will automatically appear in the desktop version of Leon and vice-versa.
