

Push Notifications

Mobile device push notification and roster history

Any changes to any duties, including flight crew changes, are indicated on the mobile device by displaying a push notification.

Clicking on the notification will display the roster changes history in the Crew Mobile App (presented in the screenshot on the right).

Once the duty is amended, it is also indicated in the OPS section, tab 'CREW' in the 'ACKNOWLEDGEMENTS' subsection.

The '**ACKNOWLEDGMENTS**' subsection indicates whether the crew member has familiarized himself/herself with the changes to flight duties.

The 'ACKNOWLEDGEMENT' displays **3 statuses**:

- **ACKNOWLEDGEMENT** (red dot) - notification sent
- **ACKNOWLEDGEMENT** (yellow dot) - push notification received by crew but not familiarized with
- **ACKNOWLEDGEMENT** (green dot) - familiarization confirmed

Currently, this functionality is available on request. Please contact support@leonsoftware.com to have it activated.
