

# Requests in Crew Duty Roster

Before this change, crew were able to make **requests** in the Duty Roster only for days without assigned duties.

Right now crew can also make requests on days where duties have already been assigned.

For example, a pilot has been assigned 4 days of training, but wants to have holiday on those days - the pilot can mark days of training in the duty roster and make a request. In such a case already added duties codes remain black, but are in red brackets.

Crew planner see also the above duties - when hovering the mouse over, Leon shows details of the request as well as details of the existing duty.

**Request**  
Type: HOL  
Duty type: off  
Created 09-05-2017 08:07 by Michael Echo (ECH)

**Duty**  
Type: TR  
Aircraft type: A319  
Airport: WAW  
From: 00:00 To: 23:59  
Duty type: training  
Included in FTL calculations  
Created 09-05-2017 08:06 by Bartosz Kamiński (BAK)

A crew planner can accept the request (marking requested duties and clicking on requested duty name, i.e. Holiday or Off, in pop-up window), or reject requested duties (by marking duties and clicking 'Requests' in the pop-up screen, below **Delete** part), which will bring back initially assigned duty.
