

## CREW MOBILE APP - Clock In / Clock Out feature implemented in My Schedule

With this feature, a crew member will be able to register the time of start and end of the duty, to which he/she is assigned.

The data registered are:

- Duty start time
- Duty start location
- Duty end time
- Duty end location

To record the duty start/end time and location, in [Leon mobile app](#):

1. Go to My Schedule
2. Open a duty you are assigned to
3. Tap the “Clock in” or “Clock out” button

**To have the location recorded, the user should allow the Leon app to access geolocation data.**

The details recorded using this feature will be available in [Report Wizard](#), “Crew Roster” scope. The columns available are:

- Clock in localization
- Clock in time [UTC]
- Clock out localization
- Clock out time [UTC]
