Copy crew option

If you wish to assign **the same crew** to the next sector or series of sectors, it is possible to copy the crew by left clicking on the flight from which the crew should be copied. Then select **Copy Crew** or use shortcut **C** and select the next sector/sectors to which the crew should be copied and select **Paste Crew** or use shortcut **V**.

In order to copy crew to **more than one sector** it is necessary to hold **Shift** or **Ctrl** key while selecting the sectors to which the crew should be copied.

Once this is done the Assign flight crew pop-up window will appear with the entire crew already selected. At this point it is possible to deselect some of the crew members.

It is impossible to copy crew to two	
different aircraft types, Leon will flash a	
red warning "Cannot paste to flights witl	n
different aircraft types".
