

COUNTRY TAX RATES FILE

When uploading fuel prices files to Leon, not all of them consist of both: 'Base' (excluding taxes) and 'Total' price (including taxes). To make it possible viewing both fuel prices in panels: Fuel Prices & OPS > tab FUEL, we have made it possible uploading a file with **Country tax rates**.

A file itself needs to be created as per the format below - only 2 columns are needed: **Country** and **Total Taxes**.

A column 'Country' can have inserted either country name (Argentina), country code (ARG) or iso code (AR).

A value from 'Total Taxes' column will update fuel prices for airports of a country from this file:

- **Total price** = 'Base price' multiplied by 'Total Taxes' value.
- **Base price** = 'Total price' divided by 'Total Taxes' value.

What's important is that inside the file, the sheet's name must be 'Fuel Taxes', otherwise it will not work.

| Base | Country | Total Taxes | Total Price | Base Price | Total Price | Total Price |

Fuel Taxes

Once the file is ready, go to **OPS > Fuel Prices** panel and use an uploader **Upload countries tax rates**.

Upload countries tax rates

xlsx, xls, csv < 5 MB

C:\fakepath\Fuel Taxes.xlsx
Done

Save

Uploaded fuel taxes will show on the main 'Fuel Prices' page in a column **Country tax rate** (see screenshot on the right).

In a panel OPS, tab FUEL, if you switch between 'BASE' & 'TOTAL', Leon will show prices accordingly, as per an example below: the tax rate for Germany has been defined to '3' and Leon shows 'Total'

price as 'Base' price multiplied by '3'.

| BERLIN (BER) + | | | BASE | TOTAL |
|----------------|--|-------------------------|------|-------|
| Provider | Supplier | Action | | |
| Everest Fuel | GERMAN FUEL SERVICE | Price per L: 0,3913 USD | | |
| | Show on Crew Tripsheet: <input type="checkbox"/> | | | |

| BERLIN (BER) + | | | BASE | TOTAL |
|----------------|--|------------------------|------|-------|
| Provider | Supplier | Action | | |
| Everest Fuel | GERMAN FUEL SERVICE | Price per L: 1,174 USD | | |
| | Show on Crew Tripsheet: <input type="checkbox"/> | | | |

If the fuel file uploaded to Leon already contained both prices: 'Base' & 'Total', Leon will not update them.
