Fuel taxes from uploaded file

When uploading fuel prices files to Leon, not all of them contain of a 'Total' price (including taxes). To make possible viewing 'Total' fuel prices in both: Fuel Prices & OPS > tab FUEL section, we have made possible uploading a **Fuel Taxes** file, which will update 'Total' price.

A file itself needs to be created as per a format below - only 2 columns are needed: **Country** and **Total Taxes**. A column 'Country' can have either country name (Argentina), country code (ARG) or iso code (AR).

	A	B	C
1	Country	Total Taxes	
2	Russia	2	
3	Poland	1	
4	Germany	3

Fuel Taxes

Once the file is ready, go to **OSP > Fuel Prices** panel and use an uploader **Upload countries tax rates**.

Upload countries tax rates

xlsx, xls, csv < 5 MB

C:\fakepath\Fuel Taxes.xlsx Done

Save

Uploaded fuel taxes will show on the main 'Fuel Prices' page in a column **Country tax rate** (see screenshot on the right).
