

# Avialable on beta.leon.aero !

## Introduction

Adding a trip to Leon always meant assigning legs to the same aircraft, which at times was problematic. Sometimes, i.e. due to AOG, the aircraft had to be changed. Before this change, a particular leg (with a different aircraft) had to be split from the original trip and a new trip was created.

Right now **it is possible to split trips (move a particular flight to different aircraft), move flights to existing trips or existing quotations.**

---

## Splitting/Merging Trips

### Planned Flights

On the example below you can see the sequence of splitting the 2-leg trip into two separate trips.

### CREATING A NEW TRIP

If you wish to **split** a particular flight from the existing trip and **create a new trip**, click the link [Move this flight to other trip](#) and select the option '**New trip**'. The link **DOES NOT** show up when creating a brand new trip to Leon.

**Make sure all changes have been saved  
before splitting the trip.**

## ASSIGNING DIFFERENT AIRCRAFT TO A PARTICULAR FLIGHT WITHIN THE SAME TRIP

**It is also possible to assign different aircraft to flights within the same trip.** You can also copy aircraft to all existing legs by marking the checkbox right next to the selecting aircraft field.

Ops notes

If you just have moved a new quotation to

the existing one you still need to update the price in the tab 'Quotation' by clicking 'update'.

Flight times for this quotation dont match times in operation.

You can  quotation data now.

## Flights List > Edit Flight

It is also possible to assign different aircraft to a particular flight within one trip in the section Flights List > Edit Flights.

Type	N	Code		Status	Flight	Trip type	Commercial	Flight rules:	I					
Aircraft	Flight No.	Date	Report.	STD	ADEP	ADES	STA	Block	Distance	RF	ALTN	E.L.	COM	CPT
H-LEON	MAN-NAM	04-09-2014	AUTO	15:30	WRO	GDN	16:35	01:05	0	A		<input checked="" type="checkbox"/>	TAR	TAR
A-BCDE	MAN-NAM	04-09-2014	AUTO	17:20	GDN	WRO	19:00	01:40	0	A		<input type="checkbox"/>	DEL	DEL
								02:45						
<input type="button" value="New Leg"/>														

A trip where there are **2 different aircraft assigned in the same trip** is displayed with one trip number in the Flights List section.
