

When viewing Planned Flights section, Leon will inform you if there has been any **crew change** done on the flight. Moreover, when you hover the mouse over the **CREW CHANGE** belt, a pop-up window will show up with the information about the previous and the actual crew.

The only requirement from you is to have a checkbox '**Show crew change**' ticked in the filter.

Below you can see **examples** of how this feature works:

- **A new flight added** - a 'crew change' belt - when hovering the mouse over it - will show the information about the previous crew (from the last flight on that particular aircraft) and actual crew (just added).

CREW CHANGE	
WAW-VKO	
VKO-AMS	
AMS-WAW	
NEW z 19:10	

Crew	CPT	FO	FA1
Previous	PAP	UNI	SIE
Actual	ZUL	YAN	----

- **Crew changed on the 1st leg** - an information will appear before the 2nd leg, showing the information about the initial (previous) crew and the changed crew.
