

Section Planned Flights > Edit Trip has been re-arranged. Comparing to the previous one it looks more clearly in both tabs: **Trip Info** and **Quotation**.

Now available on beta.leon.aero - on
Tuesday the 18th of November also on
leon.aero

Trip Info

The screen is divided in 2 columns:

Trip summary which contains 2 tabs:

Legs

Invalid Link

'Planned Flights' > tab 'Trip Info'

Here you can see added flights/options (**schedule, aircraft, date, pax number and handling**). If you **hover the mouse**? over the 'Handling' dot a pop-up window will show up with handling agent/FBO details. A favourite handler is marked with a yellow star.

When you add a new trip in Planned Flights section, there is no option to add crew in this page, so Leon does not show **FDP** warning as long as the crew is added to the trip, either from [Edit Flight](#) or [Crew Input Table](#) section.

When no crew is added you can still check **FDP limit** for just added trip by clicking **Click to refresh** icon. Leon will display details as on the screenshot below.

Once the crew is assigned to the trip you can 'click to refresh' icon to get the information **FDP: Correct** or **Flight Duty Period is too long**.

Sales checklist

Make sure **sales checklist** items have been enabled in Admin > Operator Settings > Flight Editing section.

In this tab you can change the status of each item. The status-dot colour informs about the overall sales checklist status.

Quotation

Invalid Link

Planned Flights - tab 'Quotation'

There are **3 columns** in this section. The page itself is more extended than the previous one and clearer.

- **Quotation summary**

This column contains 2 tabs: **General** and **Docs**. You can read more [here](#) about options behind them.

- **Quotation legs**

You can see all legs of the quotation: date, STD, ADEP, ADES, STA and block time of each single leg plus block time of all legs altogether.

- **Pricing**

All fees defined in the section Sales > Quotations > Price Lists appear here (read [this chapter](#) for more information).
