

GetJet

GetJet integration

GetJet allows members to search for a private/business jet flight. To become a member you need to fill-in a short **request-to-join-form** on GetJet web-site (<https://www.getjet.com/en/join>) . Your personal login and password will admit you to the member area.

How it works

The integration allows exporting Schedule and Services (aircraft availability and empty legs) to GetJet.

How to integrate

Go to a section Settings > Integration - setting up an integration with GetJet can be done in two easy steps:

1. To activate the integration switch the status to **ON**.
2. Choose the **aircraft** registration that you would like to forward the **Schedule** and **Services** for (marking 'Empty Legs' checkbox is mandatory).

Once it's done click **SAVE** to save the settings.
