

# Bases

If a company has more than one main **base** where the staff is located then you can define in Leon more bases and assign a proper one to the fleet, crew and other Leon users.

- **Defining bases**

Click icon  and in section **General settings** (at the bottom of the page) you can define bases. After re-logging right next to your name you will see a drop-down box with the list of bases.

- **Assigning bases to fleet & users**

Go to  > Fleet and edit a particular aircraft - at the bottom select the right base. Click icon 'Users', edit the profile and assign a base.

User data	
Login*	<input type="text" value="jda"/>
Code	<input type="text" value="JDA"/>
Home base	<input type="text" value="STN"/> <input type="button" value="history"/>
Home base	<input type="text" value=""/> <input type="button" value="history"/>
User base	<div><div>STN</div><div>WAW</div><div>GVA</div><div>STN</div></div>
Options	
OML?	

- **Filtering sections by a 'Base'**

By changing the base in the Flights List Leon shows fleet assigned only for this particular base along with all flights. The same can be done in sections Planned Flights, Schedule, Timeline, Duties and others.
