

Leon will recognize if passengers added to a flight are adults, children or infants by their date of birth.

When you add passengers to Leon > Phonebook and you insert the date of birth, Leon will use this to indicate on the document **Trip Sheet** a passenger as:

- **Infant** - age 0-2
- **Child** - age 2-12

All passengers over 12 years old are treated as adults and no indication appears.

Passenger Name	Date of Birth	Passport	Expires	Nationality	Legs
