

# mccPilotlog changes

Since mccPILOTLOG does have 2 different import\* functions which require 2 different csv file formats, we have introduced 2 separate links that allow generating the **file format depending on the place of import in mccPilotlog**.

Export to mccPilotLog (via Tools menu, via Airline menu)

Flight date	Flight number	Departure airport	Actual departure time	Duty start time	Takeoff time	Destination airport	Landing time	Actual arrival time
2018/10/02	RETPEA	JMK	2018/10/02 10:30	2018/10/02 08:00	2018/10/02 10:40	WAW	2018/10/02 12:30	2018/10/02 12:30
2018/10/02	123	WAW	2018/10/02 11:00		2018/10/02 11:10	POZ	2018/10/02 11:50	2018/10/02 11:50
2018/10/02	123	POZ	2018/10/02 13:00		2018/10/02 13:10	WAW	2018/10/02 13:50	2018/10/02 13:50
2018/10/04	TESTGOT	WAW	2018/10/04 07:00	2018/10/04 06:00	2018/10/04 07:10	LHR	2018/10/04 09:52	2018/10/04 10:00

## 1) Import of Previous Experience “via Tools menu” section

- this is to import the previous experience when a User sets up mccPilotlog for the first time. Any further uploads are to be done via Airline menu section
- this upload requires at least 20 flights with JL recorded
- file has a different columns layout from “Airline” upload file
- the function is located in **Tools > Import old Flight Data**

## 2) Import of Airline - Flight Schedule “via Airline menu” section

- this is to import recent schedules from the airline company, using systems like Leon
- this is for use on regular basis, such as daily, weekly, monthly
- this function is located on the **Airline page** in mccPilotlog

**Complete guideline how to use the airline interface is explained [here](#). Leon Software is an OFF LINE interface.**
