Manual sending of MVT Emails

It is possible now to define MVT Emails details, such as: 'From label' & 'Reply to email'.

By clicking the icon 🔯 (next to 'Fleet rules by aircraft') Leon shows the below pop-up window where you can define:

- From label a label/name which will appear when the MVT email will arrive.
- Reply to email an email address to which a MVT email recipient should reply.

Once the MVT email has been sent (whether it's automatically or manually), Leon will use the above settings and will show the label.
