

Slot in Timeline

CTOT in the Flight Watch

When adding **CTOT** value to the Flight Watch (right-hand filter, tab FW & JL), in a section TIMELINE Leon shows an indication of the red 'S' (see the screenshot on the right).

On the flight watch belt you can see inserted CTOT - Leon moves the belt accordingly, depending on the CTOT value.

Once ETD or BLOFF is added, the red CTOT indication disappears.
