

In the section OPS > Fleet Edit you can add **notes** related to a particular aircraft (i.e. aircraft owner contact details, preferred FBO, etc.) which will appear in 'Legs Info' main page (top-right corner).

Now it is also possible to add these notes on the '**Trip Sheet**' document.

Edit your aircraft in OPS > Fleet section, add notes in the column '**Notes**' and tick the checkbox '**Add aircraft notes on tripsheet**'.

The screenshot shows a web interface for editing an aircraft. At the top, there is a header bar with a green button labeled 'Notes?'. Below this is a large text area for notes. A yellow callout box with a red border is positioned in the upper left of the text area, containing the text: 'These notes will appear on 'Trip Sheet' document if the checkbox below is enabled'. At the bottom left of the text area, there is a green button labeled 'Add aircraft notes on tripsheet' and a checked checkbox.

When you view the '**Trip Sheet**' for a flight of that particular aircraft, **notes get displayed** in the section '**ARCRAFT NOTES**'.

SLOTS	EPKK	LKPR	EGLF
