The list of IATA Service types

It is possible to include **IATA Service Type** when sending **ASM** or **SSIM** messages from Leon.

The **1st step** is to enable this functionality by marking a checkbox 

Show IATA service type ☒

 in the Admin panel, section 'Flight Editing'. In the same section it's possible to define a **default** IATA Service

type 

Default IATA service type 

J ▼

All available IATA Service types are explained in the screenshot on the right.

When enabled, the IATA Service type will show for each flight in 'OPS' panel, tab 'FLIGHT'- it can be manually changed if necessary.

Date:	Flight No:	Aircraft:	A/C Type:
11 Feb 2022	ZZ001A	DLEON	GLF4
Departure:		STD:	Flight Time:
WAW (UTC +01:00)		12:00	00:30
Warsaw, WARSAW CHOPIN		12:00 LT	
Destination:		ETA:	Block:
AMS (UTC +01:00)		13:30	01:30
Amsterdam, AMSTERDAM S.C.		13:30 LT	
ALTN:	ALTN2:	Distance:	ICAO Type:
---	---	516	S
IATA Service Type: V			
Rule:	Rest Facility:	Rotation:	ADC:
I-IFR	Surfative	01:00	Default

It also shows in the panel **SCHED** (when creating or modifying schedule).

Schedule										
Day Shift	Flight No	STD	ADDP	AGES	ETA	ALTN	Distance	IATA Service Type	CMT	Form Actions
N/A	M123	12:00	WAW	AMS	13:30		516	J		+ -
										CANCEL ADD SCHEDULE

The main section where IATA Service type will be especially useful is sending **ASM message** window from the **SHOW SCHEDULE** panel.
