

# SIMULATORS in OPS

We have added a new way of adding **Simulators** in a section OPS. It works in a similar way to the one implemented in a section 'CREW PANEL'.

It is no longer required to add Simulator as a flight type 'Simulator' (in a tab TRIP) and then - once it's done - to add Journey Log.

Add Simulator

Aircraft type

C525 - Citation Jet 1

Date

19 Dec 2019

BLOFF

14:00

T/O

14:02

ADEP

LFBO

ADES

LFBO

LDG

18:00

BLON

18:02

Landings

3

CPT

AGA - Adam Garcia

FO

Pilot Flying

AGA

Approach

Notes

Performed under supervision

CANCEL

ADD

Add Simulator window

To add a new **Simulator** click on 

NEW SIMULATOR

 button. Once a pop-up window shows, fill it in with details such as: Aircraft type, Date, ADEP, ADES, BLOFF, T/O, LDG, BLON, Landings, Crew (CPT and FO), Pilot flying, Approach and Notes. All these details (apart from Notes) must be filled in in order to add SIM duty.

Added SIM duty will appear in OPS views with already **filled in Journey Log**.

<input type="checkbox"/>	FW & JL	Flight No.	Day	Date	STD	ADEP	ADES	STA	ACFT	Crew CPT	Trip No.	PAX	Checklist	
													OPS	SALES
<input checked="" type="checkbox"/>		SIM	Fri	20 Dec	16:00	EPWA	EPWA	18:03	?	ANT	12-2019/100	Simulator		

Added Simulator flight can always be edited and its details can be changed.
