

Showing aircraft activities modification

We have modified showing **aircraft activities** in the OPS TIMELINE panel, by **upgrading** the 3-dot filter.

The 3-dot filter's option 'Show active aircraft only', where it was only possible to select YES or NO, has been changed into **Show aircraft** with **3** selections.

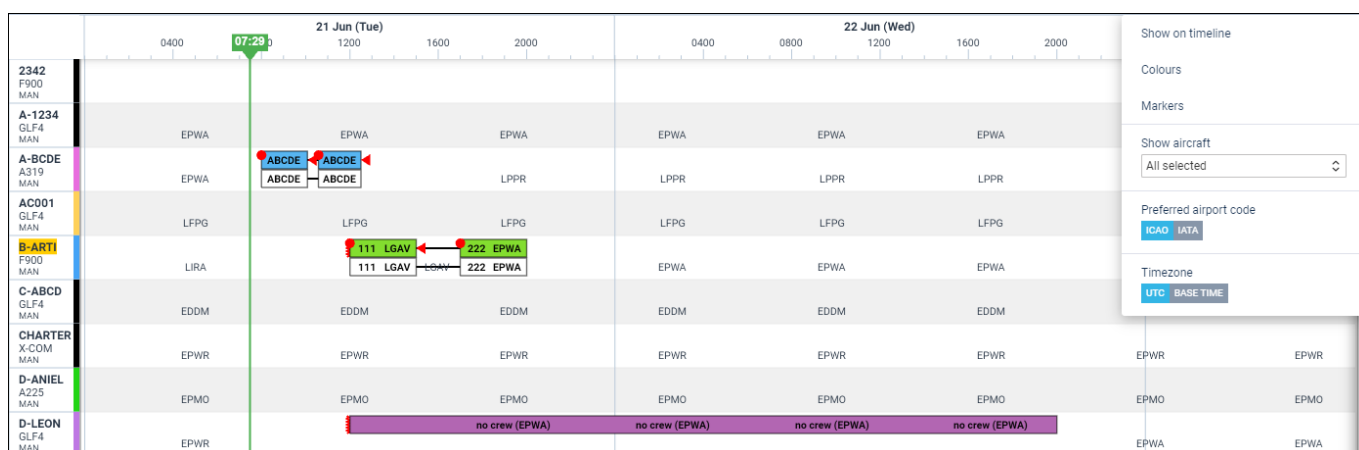

1. With any activity - showing tails with added flights, reservations or scheduled maintenance.

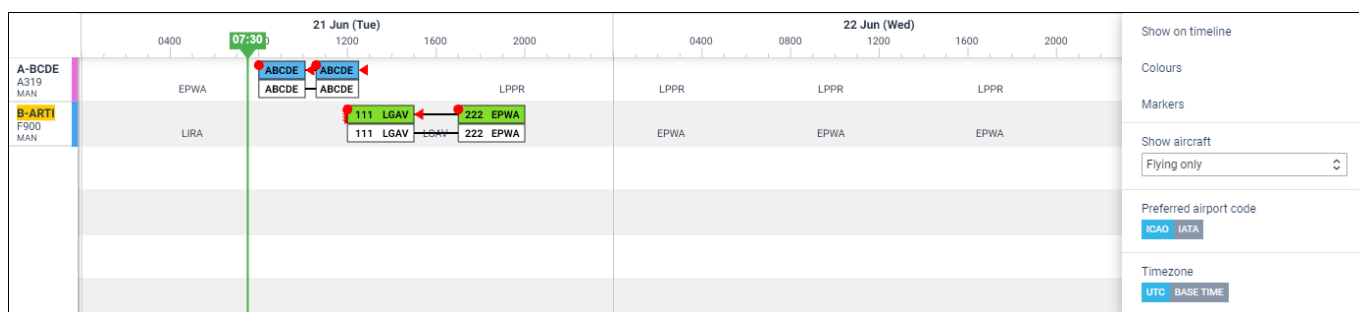

2. All selected - showing all tails, including those without any activity assigned.

Last update: 2022/06/21 08:30 updates:ops-timeline-showing-aircraft-activities-modification <https://wiki.leonsoftware.com/updates/ops-timeline-showing-aircraft-activities-modification>

3. Flying only - showing tails with flights added only (excluding reservations or scheduled maintenance).
