

Get Country List in Overflight Permits

'Get Country List' option

It is now possible to **search for the list of countries** for Overflight permits purposes.

In order to search for the countries, the **following steps** need to be performed:

1. Go to 'OPS Checklist' and click on the 'REQUEST' button next to the 'Overflight permit(s)' option
2. Click on the 'GET COUNTRY LIST' button within the 'PERMITS' pop-up window
3. When the list of countries appears, check if all the necessary countries are listed
4. 'SAVE' the selection

The country list is generated using RouteFinder and may not match the planned route. Please review and apply changes to the list if required.
