

Excluding tax from VAT

An algorithm to add **VAT** to the quote has been changed - all taxes (UK, German or Italian) are shown as separate items, excluded from general VAT calculation.

Before this change, when generating an invoice for the quote where the tax was included into overall invoice amount, Leon was showing total price included the tax - as on the screenshot below. When adding **VAT**, there was no option to exclude the tax from it.

Items	Net	VAT	Gross
Flight fee - EGGW - EPWA	14970 EUR	18 %	17664, EUR
Total 17664.60 EUR			

Now Leon will show the 'Flight fee' **excluded** tax and when adding VAT, it will apply to the flight fee only.

Items	Net	VAT	Gross
Flight fee - EGGW - EDDB	15153,87 EUR	18 %	17881,57 EUR
UK Air Passenger Duty Tax	91,13 EUR	N/A %	91,13 EUR
Total 17972.70 EUR
