'Cancellation policy' in Subcharter

Cancellation policy in the subcharter details section is the policy that applies to the contractual agreement between the operator performing the trip and the subcharter aircraft provider.

It can be inserted manually if the subcharter details are added on a subcharter aircraft in Leon.

If the subcharter is requested via **Avinode**, the 'Cancellation policy' details are fed from Avinode, as long as they're available in the subcharter operator settings.

Once the 'Cancellation policy' details are inserted, Leon will remember the details and apply it when the aircraft is used next time.
