

## SUBCHARTER

Subcharter flights in Requests/Quotes panel

When you use occasionally subcharter aircraft from another operator, our panel **REQUESTS/QUOTES** allows supporting quoting for external aircraft types with Subcharter option.

In order to use subcharter option create a quote (or edit existing one) and in the **Aircraft** drop-down box select 'Subcharter' - insert the price, add schedule details (or mark times as 'TBA'). In a tab 'SUBCHARTER' which appears in the right panel, select an **AC type** (it is mandatory to save the quote, if you don't select the type Leon will show a warning). Other details, such as: Registration, CPT and FO are not mandatory.

Once the subcharter quote is saved you can manage it just like a standard quote. There is one exception - you cannot physically book subcharter quote as option / confirmed flight into OPS module. However, you can still change the status to 'option' and book, but the quote will not be booked.

You can send **Flight Quotations** containing normal and subcharter quotes. You can send subcharter **Contract** and **Flight Brief** for subcharters using documents templates which can be customized from [Documents Manager](#) and **Email Templates** from [Email Templates](#) panel. In both of these panels you have access to fields values provided in 'Subcharter' tab of the right panel.
