Updates in Requests/Quotes

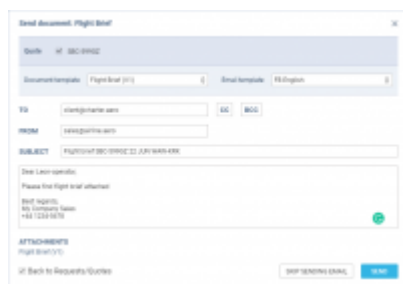

Sending Flight Brief to the client

We have implemented further modifications & features into **Requests/Quotes** panel:

1. New checkbox in 'Send email' window

If you tick the checkbox and press any of the buttons in the 'Send email' window, Leon will revert to the list of Quotes.

This setting will be saved so next time when you open an email window this checkbox will be already ticked.

2. CAMO limits warnings have been added to the 'Feasibility check information' window.
