ADD

Reservation type 'Opportunity'

It is also possible to create the 'Opportunity' type reservation.

This type of reservation can be used by sales teams to plan potential sales of the aircraft on a particular routing.

Once the 'Opportunity' type Reservation is selected, the option to insert ADES will appear which **allows inserting the routing for a timeframe longer than 24h.**

This type of reservation will be **sent to Avinode** as a potential availability of this aircraft on this selected routing.

IMPORTANT! Avinode can verify the empty leg availability of 5 days or less, therefore one reservation has to be booked for such period and not longer.

Once the reservation is added to Leon it will display as per below:

	05 Jul Mon	06 Jul Tue	07 Jul Wed	08 Jul Thu	09 Jul Fri
	09:00 EPWA-UUWW reservation	EPWA-UUWW reservation	EPWA-UUWW reservation	EPWA-UUWW reservation	EPWA-UUWW 15:00 reservation
GLEX SBC-599GZ					

Upon **exporting it to Avinode** it will appear as an empty leg availability:

Available From	Available To	Aircraft	Price (excl. tax)	Message	Status
EPWA, WAW 05 Jul 2021 11:00 local (09:00 UTC)	UUWW, VKO 09 Jul 2021 18:00 local (15:00 UTC)	SBC-599GZ			✓ Verified until 10 Jul Edit Deactivate

If a Client/Broker searches for an empty leg on the particular routing, the empty leg from operator will appear in the search.
