Trip modification

In the main view of **SCHED** section, once the flights are selected and **MODIFY FLIGHTS** button hit, Modify pop up window opens up.

In this window, the content has been divided into two separate tabs; tab Flight, which allows flight changes as previously, and **tab Trip**

From this tab it is now possible to make the following changes on selected trips:

- **Client** - add client
- **Trip type** - change trip type
- **Option** - mark the trip as option
- **Commercial** - indicate the commercial / non-commercial trip type
