

# NEW UNSAVED CHANGES OPTION

It is now possible to **save changes** while switching between the flights. This is due to amendments we have introduced to the SCHEDULE section.

When switching from one flight to another without saving changes made on a previous flight, Leon will provide **3 options** in a pop-up window:

- **SAVE** - saves changes on a flight.
- **CANCEL** - allows remaining on a flight without saving changes.
- **DISCARD** - switches to the next chosen flight without saving changes on the edited flight.
